HALIFAX COUNTY REGION

The first European settlement of Halifax County began in June, 1749 when the Honourable Edward Cornwallis founded and fortified a base at Halifax to counteract the French Fortress at Louisbourg. The site was chosen for its large natural harbour which remained ice free year-round. A year later, 350 English settlers began the settlement of Dartmouth on the opposite bank of the harbour. Despite steady growth, the area remained primarily a shipping and military centre through the nineteenth century. The City of Halifax was incorporated in 1841 while Dartmouth was incorporated as a town in 1873 and a city in 1961. Bedford became an incorporated town in 1980. The Municipality of the County of Halifax covers all of the County outside of Halifax, Dartmouth and Bedford.

By the early twentieth century, Halifax had developed into a major defence base on Canada's east coast. During World War I, the area became an active shipbuilding centre, and the Canadian Forces mobilized here for the War in Europe. During the War, two ships collided in the Narrows between Bedford Basin and the harbour. One was a munitions ship and the resulting explosion flattened large portions of the north ends of Halifax and Dartmouth, killing over 2,000 and injuring 8,000. The twenties and thirties were spent in rebuilding in time for the active period of World War II when the nation's war effort was again channeled through the port of Halifax, as large convoys formed in Bedford Basin.

The economy of Halifax County, today, is a diversified one. Maritime Command is headquartered in Halifax with the largest concentration of Armed Forces personnel in Canada. Both the federal and provincial governments are significant employers, and many of the major financial institutions have regional headquarters within the Metro Area. Industrial parks are located throughout the county, and have attracted numerous manufacturing and distribution establishments in recent years.

Despite its diversity, the Metro Area still derives much of its economic significance from its outstanding harbour and its strategic location on international commerce lanes. Development of four container berths and two autoport berths have kept the area in the forefront of international trade.

Recent construction in the Metro area has included numerous office, retail, condo/residential and industrial park developments. Several major hospital projects are coming on stream, including the $44 million new Grace Maternity Hospital, $87 million Halifax Infirmary, expansion of the IWK, and additions to the Nova Scotia Hospital and the Dartmouth General Hospital. A 7-year, $195 million harbour clean up project is expected to get underway in 1989. Along Alderney Drive in downtown Dartmouth a library, office and retail complex is in the advanced planning stages. The $15 million Mic Mac Rotary Interchange will be completed in 1990.

N/A - data not available

Due to the lack of legal or official boundaries, the Census is not always able to distinguish the population of these unincorporated places from that of the surrounding area. The population figures shown above for 1981 and 1986 should thus be considered as approximations.

TRANSPORTATION

Roads

Highways from all points in the United States and Canada join the Trans Canada Highway from New Brunswick into Nova Scotia.

Administration of public highways in Nova Scotia is a provincial government function performed by the Department of Transportation and Communications. Its responsibilities include the construction and maintenance of Nova Scotia's approximately 25,800 km (16,035 mi.) of roads and several local ferry operations.

The Department classified its roads as follows:

Freeway: A multi-lane, divided highway designed to carry large volumes of traffic at high speeds under free-flow conditions. There is full control of access on a freeway, with access at interchanges only. Freeways provide service within urban areas and also connect major centres and areas of major economic importance within the province or to adjacent provinces or states.

Arterial: A highway, two lane or multi-lane, usually with limited access designed to carry significant volumes of traffic at high speeds within urban areas or between major economic areas and points of entry.

Collector: Highways, which give equal importance to traffic and land service functions are referred to as collectors. They form an integrated network throughout developed areas, and provide road access to resource and resort areas, industrial centres, smaller towns and villages. Generally, they collect traffic from local roads and feed it to arterials and freeways, or vice versa. Access may be regulated.

Local: Highways that have land access as their primary function. Access points may be frequent, both to adjacent land and at street intersections. Generally, traffic volumes are significantly lower than for other classifications.

ROAD KILOMETRAGES - 1987

	(number)			
Halifax County	133,582	34,641	29,027	197,250

Rail

Rail transportation is often the shippers most cost effective choice for the bulk transportation and distribution of goods. There are over 1,100 km (700 mi.) of track in Nova Scotia. Canadian National Railways (CN) offers freight services on a regular basis on some 800 km (500 mi.) of this system providing intermodal and carload services to the rest of Canada. Daily scheduled services run from Halifax to Truro and Moncton, from Truro to Sydney, and from North Sydney to Newfoundland via Marine Atlantic. The Dominion Atlantic Railways (DAR) runs trains between Halifax and Yarmouth via Kentville. CN trains travel three times a week from Halifax to Bridgewater and on a "demand" basis between Bridgewater and Liverpool. In the Halifax region, CN also serves a number of the industrial parks and marine facilities.

VIA Rail Canada provides intercity rail passenger service in Nova Scotia. Rail diesel cars travel daily through the region between the following points: Halifax-Truro-Port Hawkesbury, Halifax-Truro-Sydney, Halifax-Kentville-Yarmouth and Halifax-Truro-Saint John. A full service train, the Atlantic Transcontinental, operates on a daily basis between Halifax and Montreal, connecting with services to Toronto and western Canada.

Air

Commercial air services are available at Halifax International Airport. As well, the Department of National Defence has a military airport at Shearwater.

Halifax International, which ranks eighth among Canadian airports in numbers of arriving and departing passengers, is served by Air Canada, Canadian Air Lines International, Air Atlantic, and Air Nova. There are daily scheduled flights to and from all major centres within the Atlantic Provinces, as well as Montreal, Ottawa, and Toronto, with connections and/or through service to western Canada and the United States. Also, there are regularly scheduled services from Halifax to Boston, New York, London and Amsterdam.

AIRPORTS

Airport Location	Runway Number	Runway Size	Runway Surface
Halifax	06-24	2682m x 61m	Asphalt/Concrete
	15-33	2347m x 61m	Asphalt
Shearwater	11-29	2743m x 61m	Asphalt
	16-34	1735m x 61m	Asphalt

Bus

Intercity Public Transportation Services include:

Acadian Lines	Halifax - Yarmouth via Annapolis Valley Halifax - Sydney via Baddeck and via St. Peter's Halifax - Amherst via Parrsboro and via Wentworth Valley
MacKenzie Bus Line	Halifax - Yarmouth via South Shore

Urban Transit Systems include:

Metropolitan Transit System	Serves the cities of Halifax and Dartmouth, town of Bedford and parts of Halifax County

Marine

Being a coastal province, Nova Scotia has always enjoyed the benefits of numerous sheltered ports and harbours.

Facilities within Halifax County Region include:

FERRY SERVICE

Ferry services include the Dartmouth ferry system which was established in 1752. Operating as the oldest saltwater ferry system in North America, it provides commuter service across the harbour between the downtown cores of the cities of Halifax and Dartmouth. A Woodside ferry service, commenced in April, 1987 aids commuting from Dartmouth's outer boundaries across the harbour to Halifax.

PORTS

Halifax

A large deep water all-weather seaport on the east coast of Nova Scotia, it can be approached directly from the Atlantic and is within 54 miles of the great circle route from Europe to North America.

Accommodation:

Facilities at the ice-free harbour include 35 deep-water berths, four container berths, two auto-terminal berths, facilities to handle offshore vessels and other appropriate infrastructure to complement a world-class port.

Sheet Harbour

Year round navigation with use of ice breakers; mobile cranes available; storage area at back of wharf.

Accommodation:

Channel depth, 10.97 m to upper end of harbour. Then depths from 14.63 to 15.24 m. Anchorage anywhere in harbour in depths of up to 18.3 m. Berthing length at Government wharf, 54.86 m, depth alongside 5.8 m LW. No rail spurs or handling facilities. Water from hose.

Ship Harbour

Derrick and portable cranes available.

Accommodation:

Channel depth ranging from 3.66 to 14.6 m. Government wharf is 54.86 m long, with depth alongside to 3.66 m. The best anchorage in the harbour is between Salmon Point and Whale Islet; 7.31 to 11.89 m of water in mud bottom.
